

Report Period: Aug 17-30

### **Summary of Progress in this Period**

For this week, we had a meeting with Dr.Jones on Monday in which he gave a quick overview about the project. Team members decided to have a weekly advising meeting on Monday at 12pm-1pm with Dr.Jones. Dr. Jones had shared us with documents from the previous MicroCART teams and set up CyBox for team's weekly status report. Team members consider having another fixed online meeting with only group members on weekends. Overall, this week is mostly setting up a time schedule that works best for all members.

---

### **Pending Issues**

Finding time block for team members to work on their assigned task.

---

### **Plans for Upcoming Reporting Period**

Assign roles and tasks to team members.  
Review project by previous MicroCART teams
